EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward Van Gieson on September 20, 2006.

DETAILED ACTION

Allowable Subject Matter

2. Claims 1-4 and 6-13 are allowed.

3. As to claim 1, Lengyel (U.S. Patent 6,016,150) discloses:

determining that each sample of a subset of samples is associated with an equivalent degree of shadowing (col. 25, line 63-col. 26, line 7; a preprocessor judges whether a shadow map is equivalent or near-equivalent for a subsequent frame);

generating an indicator representing said degree of shadowing associated with said subset of samples (col. 25, line 63-col. 26, line 7; the shadow map is an indicator and contains shadow values which could also be construed as indicators).

Other references, such as Duluk (U.S. Patent 6,288,730) disclose an identification of visible geometry depth range for a set (col. 7, lines 6-28). Duluk determines visible shapes based on z-values. However, neither Lengyel nor Duluk, nor any reference combinable with the two, discloses determining whether such a range overlaps a shadow volume boundary depth range. Motivation may exist to combine identification of a visible geometry depth range with Lengyel, but one would still not end up with an invention that reads on claim 1 in the instant application. While Lengyel is concerned with shadow volumes, there is no suggestion in either reference to determine an overlap between VG depth range and SVB depth range.

4. The following is an examiner's statement of reasons for allowance:

Art Unit: 2628

As to claim 1, the prior art does not disclose the limitation of "determining whether said VG depth range overlaps a shadow volume boundary ("SVB") depth range" along with the other limitations of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
